

Dear Families,

This year my students will be engaging in digital practice on Edcite. Not only will students work on a variety of online assignments that are standards-based, but they will also receive immediate feedback. As a bonus, students will have a chance to practice answering the types of technology-enhanced questions found on the end-of-year state tests.

Please indicate below that you have read this letter. Include your email address if you would like to receive updates on your child's progress on Edcite.

Do not hesitate to contact me should you have any questions. I look forward to a wonderful year of digital learning with your child!

Sincerely,

\_\_\_\_\_

Student Name: _____
Edcite User ID: _____
*Class Code: _____

\*If no User ID is listed, please visit [www.edcite.com](http://www.edcite.com) and create a new student account using the Class Code.
